Dear Ms Meo,

I have looked at the request for extension.

The dissemination plan was due to be finalised in Month 1 of the project. The need to revise it is not justified in the letter. The fact that savings were made does not justify the addition of new activities. Nevertheless, if new activities were necessary, they should first be described and justified and their budget assessed before we could take a decision on their eligibility and the need for an extension. Could you also explain what the extension of time to analyse the impact on women's wellbeing would involve in terms of activities and budget ?

From an administrative point of view, the best option would be to finalise all the project activities before the Italian administrative reform takes place. The reform will inevitably entail a modification of the partnership. Will Istituzione Solidea simply be renamed, cease to exist completely or will it be transferred to any entity/ies. Will this new entity/ies need to implement any activities and incur any costs ? In case they incur costs, they should become co-beneficiaries. We would then need:

- written confirmation that the existing co-beneficiaries accept the changes
- written confirmation of the Istituzione Solidea that it will stop being a co-beneficiary
- a copy of the law n. 56 of 7 April 2014
- additional information on the structure and the organisation of the work
- co-beneficiaries declaration forms and mandates signed by all the new co-beneficiaries
- Legal entity forms with supporting documents for the new co-beneficiaries that are not yet registered in the central information system of the Commission. It seems by the way that we have not received the supporting documents of Istituzione Solidea. Would you have the following documents:

In case the new entity/ies do not incur costs, they could be associate partners. Associate partners declaration forms would be necessary.

The transfer of the budget for travel costs from Istituzione Solidea to Libera Università dell'Autobiografia is acceptable provided that we receive written confirmation of Istituzione Solidea or a copy of existing correspondence on this subject. The documents can be drafted in Italian.

Could you reflect on the above and provide me with more information ?

Thank you.

Best regards,
